

Message From the President

Enagic celebrated its 34th year in June 2008 as a specialized manufacturer of high quality water generating systems. Today Enagic's pledge to realize a revolution in True Health - in the form of physical health, economic health and mental health - is supported by a multitude of people.

The human body is comprised of over 70% water. It is no exaggeration to say that “the basis of vitality and long life is water.” Enagic offers safe water that can be used with confidence to benefit health, beauty, sanitation and cuisine.

Enagic is an integrated development, manufacturing, sales and service company. Today, as the graying of society continues, a major company theme is the active use of “Kangen” and acidic water in the battle against aging.

As the evolution of information technology continues we have entered the age of “human technology marketing.” Market vitality now depends upon a merging of high technology and the “high touch” relationship between human beings. Enagic is teaming up with an international network of offices and numerous distributors around the world to spread the word of “water and health”, while building a global company with worldwide operations.

Hironari Oshiro

President & CEO Enagic USA, Inc.
